Some Convention Observations.

Some Convention Observations.

Judge Frick, chairman of the convention, indisputably an honest man, doubtless felt the criticism that came to him because of the shut-out of W S Naylor in the County convention by the rabble at the back of Sheriff Emery, and he took especial pains to see that every man who desired recognition, got before the convention yesterday.

Two such outrages as that of Thursday would have been monstrous, and Judge Frick is too good a politician to have failed to observe the evil of the organization that is the result of the Emery incident.

Parley P Christensen, Jack Acomb, George Wilson and other active Republi-can clubmen, made a heroic fight to break the slate in the interest of Will Dunn, but they were thrown down and wiped up by the radicals in great fashion.

Five Mormons and five Smootized Gentiles compose the ticket for the lower house. Good men, some of them, but wholly in the grip of the Smoot-Anderson-Cutler-Sutherland clique. The candidates for the Senate may not have been pledged. They all say they are untrammeled, but the Sutherland men claim that they will all vote for Sutherland for the Senate when the time comes. This is not generally believed, however.

Fred Price, the Sutherland man "who never sleeps," claimed the honor of finding Thomas Hull. He says he nominated Hull two years ago, and he nominated him yesterday. Just when Fred discovered this statesman is not given, but the presumption is that he kicked him out from under a chip somewhere.

Criticism came to H. E. Booth because of a remark he made in nominating a candidate for the Legislature. He said. "Put a laboring man on the ticket. We want that vote."

Some one before had notified the convention that one of the labor nominees could "deliver 700 votes to the ticket."

That is about the worst insult to federated labor I ever heard in a convention," remarked a federation man. "I do not doubt that Cromer might be supported personally by 700 union labor men but to intimate that he could get 700 Democrats and Socialists up in a package and deliver them as a whole to the Republican ticket, is not only absurd, but an insult."

State Secretary Allen T. Sanford attempted to bully the convention into changing the order of the call in the First precinct by beginning at the Eleventh district and calling it backward to the First, and he was promptly sat upon.

The Honorable George Sutherland introduced E. D. R. Thompson and several well-known Gentiles who are affiliating with the Smoot wing of the Republican party, as "priests of the church." It was a pretty clever movement on "Georges" part, but cails fresh attention to his "priestly" friend Thompson.

Thompson is now a priest in fact. Last spring he was one of the most rabid anti-Mormons and anti-church domination men in Utah. He wanted to organize a Liberal party then because he thought it would injure Senator Kearns. Senator Kearns had been unable to secure for him appointment as register of the land office, and E. D. R. T. got grouchy. Now that many of the Senator's friends are in the American party movement. Now that many of the Schator's friends are in the American party movement, E. D. R. T. has joined with the church party and is whooping er up for George, with his eye staadfastly fixed on his newfound friend's "blue book"

E. D. R. T. should go away back and get his hair combed

A prominent polygamist had the gall to appear in the convention and second the nomination of four candidates for the Legislature.

Angus M Cannon tried to prove that he had no influence over the convention by nominating a candidate who had no possible show. It was a piece of work that had alfalfa whiskers on it.

"They say I have domineered this convention," declared the old patriafch. "Now you just watch me nominate a man who will get but forty votes," he might have added.

Some one wonders, what Sutherland.

Some one wonders what Sutherland-Anderson-Callister and others who are reported to have bolted the Knox ticket last year on the cry of fraud will do to the ticket they nominated yesterday by shady methods

If Thursday's convention was cold. Fri day's was an leeberg. It was almost devoid of excitement or general interest. Outside of a few laughs that were pro-voked by some "tricks" or wittleisms. the convention was a regular meetinghouse affair.

One delegate declared that he had heard about "fragments" since he was a child-had heard it used in connection with the parable of "the loaves and the fishes," but until a couple of days ago he did not know what the term meant. It was then that he learned "fragment" means the new American party, he said. In this case, the delegate did not recount, the "fragments" comforted a multitude.

Friends to D. O. Rideout charged his defeat to the circulation of a hard story. It was rubbing it in with a vengeance on Orson H. Hewlett, to give his recent antagonist a fresh opportunity to laugh.

C O Whittemore tried to make the convention believe the convention of the day before was not in the hands of slatemakers. He might have impressed outsiders had The Tribune not have forecasted the ticket the day before, with a single exception, but he could never convince the delegates that a slate was not followed.

followed.

Mr Whittemore also said the Republican party is tired of slates, when every man in that convention had a slate in his vest pocket at that moment. But Mr. Whittemore is an innecent young man and he probably had not observed anything wrong.

Gen. Miles to Make Effort to Save Democratic Ship.

NEW YORK, Sept. 22.-Before leaving the Democratic national headquarters today Gen. Miles said that he would make several speeches during the campaign under the nuspices of the speakers' bureau. The General said he would, in his speeches, speak at length on the two topics, the attitude of the United States toward the people of the Philippines, and the attitude of the administration with regard to the establishment of a general army staff. It was announced at Democratic headquarters that the speakers bureau will send the General on a long trip over the continent during the campaign.

support to the work

Mass Convention just inaugurated to of American Partyfree Utah from the September 30 apostolic yoke. At September 30. apostone this meeting a State and Congressional

and Congressional ticket will be named. The meeting is called by the State committee of the American party of Utah as a mass convention, and "all citizens of Utah, with-out regard to religious belief or political affiliations, who believe that the time has come to redeem Utah from the domination of the priesthood of the Mormon church and who desire to make Utah an American State, are invited to attend and participate in the convention."

The State nominating committee of the American party will meet next week and make up a ticket to be recommended to the mass convention Friday night. The names of the members of the committee will not be made public until the night of the convention.

Col. George B. Squires told the legisla-tive convention yesterday that "our party is weak on newspapers." That will cost the genial Colonel many a roast after the contract with the subsidized "weeklies" expires, unless he puts up good and

"Where are the Democrats" asked a fresh young delegate in the Smeetlzed convention yesterday. "Why, they are the niggers" he declared, in answer to his own inquiry. And just then a portly colored delegate made the other look like a plugged copper by declaring loyalty to the entire ticket, even in face of the insult.

Brother Anderson ('Fussy") was helping the county delegates come to an agreement on the candidates to be presented to the convention, according to a report, and wanted one of the candidates for Assessor to withdraw, in order to clear the field for Cam, Brown. The candidate who is said to have more wives than the law allows, was obstreperous, and 'Jimmy' got so excited that he threatened to have him presecuted for polygamy if he didn't withdraw.

There will be a meeting of the Smootized Republican county committee at county headquarters, Atlas block, this evening at 7 o clock.

During the Democratic State conven-tion so much racket was made by work-men who are building an outside stairway on the cast side of the Salt Lake Theatre, that Senator Bamberger was made a com-mittee of one to put a stop to it. The workmen were laid off for the day and a bill for over \$20 was sent to Senator Bamberger.

Jack Heffernan has been delegated to organize the American Party Drum corps. Some fine drums and uniforms have been ordered.

According to a report circulated yester-day, former Chairman Anderson stood in the files on the stage of the Theatre during the period when Sheriff Emery's Friends were shutting out the other candidates. When some one moved to make Emery's nomination by acclamation and there was a storm of protests, "Jimmy" stepped out where he could be seen, made a gesture with a sweep of the arm and said to a bystander: "All those men are may friends."

The delegates understood and promptly voted for the motion.

"The Utah Icicle" did not turn up at the legislative convention. He was doubtless counseled to get out of town until the local party could thaw out.

go to Plute county today to see after his farm.

But instead of sending around some blankets he called for a few minutes himself and gave everyone a chill.

HEITFELD IN SOUTHERN IDAHO. Some Differences Over Mormon Plank in Democratic Platform.

There were more than 400 persont. The presence of the nominee and his address created an excellent impression in Bear

ake county.
This was the opening gun here. Much This was the opening gus area, and interest in the meeting was occasioned by the failure of the State central committeeman here and a few blased Democrats in Bear Lake county to co-operate with the State committee at Boise, owing to the plank in the Democratic platform, which these men allege was directed at the Mormon people of the southeastern portion of the State.

men people of the southeastern portion of the State.

This plank was the one pledging the people of the State that if inducted into power the Democracy of Idaho would place on the statute books laws against illegal cohabitation and polygamy. Heliteld takes the position that if elected he will do all in his power to carry out this, as well as other planks in the platform of the State Democracy, adopted at his home city, Lewiston, last August 16, and his speech declaratory of this fact served to clevate him as a candidate for Governor.

gates were elected to attend a non-partisan county convention, to be held in Provo next Saturday. At this convention a candidate for County Superintendent of Schools will be nominated and the chances are that he will be elected, as the Democrats have agreed to piace his name upon their ticket, and besides this, there are hundreds of Republicans who will support the non-partisan nominee. The Republicans decided to run the County Superintendent of Schools along party lines, and have the name of Lars E. Eggertson on their ticket, which will compel many Republicans who favor non-partisan schools to scratch their tickets. At the primary held hast evening A. J. Evans, James T. Worlton, Mrs. H. L. Baker, Miss Pearl Davis, Morgan Evans and Henry Lewis were elected as delegates, and W. S. Evans, James M. Anderson, Joseph Anderson, Edna Hackett and Amy Sharp as alternates. Of the delegates four are Republicans and two are Democrats. At Pleasant Grove the proposition stands the same, at American Fork the delegates are divided between the two parties, and at Alpine all the delegates are Republicans, but notwithstanding this fact they will unanimously sustain Prof. G. N. Child of Lehi, an independent Democrat, for the nomination of County Superintendent.

The convention at Provo will probably pass a resolution petitioning the coming Legislature to change the date for the election of a school superintendent making it come on the same date as that on which trustees are elected, and if the convention adopts the resolution, efforts will be made to get all the educational institutions in the State to indorse a similar petition to the Legislature.

Among the callers today were James K Jones of Arkansas, William S Cowherd of Missouri, James S Hogg and Senator Cuberson of Texas, and other leaders.

Senator Gorman was with Judge Parker for more than an hour. They went over the plans for the campaign and agreed that the canyass should be put under way without delay and be conducted in an energetic manner until November. Some of the details were considered, and there was a discussion as to the strongest speakers to use in the doubtful States. The report that they are to invite Grover Cleveland to take part could not be confirmed.

Mr. Stalker was born in Franklin, Ida., in 1871, is the son of polygamist parents, his father having had three wives and confessing to twenty-two children.

Young Stalker was educated at the Utah Asplicultural college and is also a graduate of the Oregon State university. He a a young man of ability, and has been superintendent of the Baker City public schools for four years.

He is thoroughly conversant with the Mormon question and asserts unequivocally that the Mormons are still active in the polygamy business and also in the polygamy business and also in the polytical. He represents a large class of young people, some of whom have left the Mormon church and some still remain with it, sons and daughters of polygamist parents, who want this foul blot wiped out from the escutcheon of the State and Nation.

WATSON GOES FOR PARKER.

Pop Candidate Declares That Judge Stands for Nothing.

HOUSTON, Tex., Sept. 23.-Thomas E. Watson, Populist candidate for President, tonight delivered an address to a great crowd of people assembled from the surrounding country, several excursions being run. Mr Watson is still suffering from an indisposition, and appeared weak. He was given close attention. Mr. Watson said:

"If our campaign hurts the Democrats most this year, that is not our fault. It is the fault of Jones and all the others who sold out the principles of Democracy to Wall street at St. Louis. Had Senator Jones and his crowd readopted the Omaha platform, or something similar, and then nominated some real Democrat, as Hearst or Bryan, the People's party could not have done business in 1294 at all.
"It is the astounding betrayal of Democratic principles by Jones. Hill & Company which gave the People's party the opportunity to renew the fight for Jeffersonian Democracy. Inasmuch as we are now advocating the same principles which Bryan Democraty. Inasmuch as we are now advocating the same principles which Bryan Democraty advocated for eight years, it seems a little hard that we should be abused as "assistant Republicans." If anybody has sold out, it would be reasonable to suppose that it was the crowd who dropped their principles. We have not dropped ours.

"In my opinion, Parker is going to be one of the worst beaten men in political history, for the reason that he stands for nothing. He does not even pretend to have any principles. That such a man can be elected is an impossibility.
"The Eastern Democratic forgot that the American people had both mind and conscience. Their aurrender of principle at St. Louis went beyond the limit of endurance. The Democratic rank and file did not authorize that surrender and will not ratify it. The masses are rising in revolt, and the city politician may tremble for the thunderclouds are forming. As sure as right lives and God rules, there's going to be a storm.
